## DINO MATCH

See if you can match these dinosaurs to their names.

### DIPLODOCUS

A herbivore with a loooooong neck and tail

### PTERODACTYL

A flying reptile who technically isn't a dinosaur

### XENOCERATOPS

A frilled dinosaur with pointy horns

### CEDARPELTA

A dinosaur that wears a lot of armour

### GALLIMIMUS

A beaked dinosaur whose name means 'chicken mimic'

### STEGOSAURUS

A dinosaur with plates and a spiked tail

### TYRANNOSAURUS

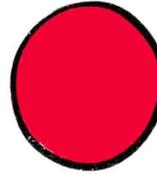

A fearsome carnivore with teeny arms

## DESIGN A DINO

We don't know exactly what dinosaurs looked like, so why not design your own? It might have spots, stripes or purple feathers.

# FOSSIL FINDER

Palaeontologists like to know which bones go where. Can you find out where these belong?

**HAPPY FOSSIL FINDING!**
