

SPOILERS HAVE BEEN REDACTED

I loved this book as it had just enough mystery that it wasn't obvious what was going to happen but the book still made sense and you really felt compelled to keep on reading. I liked the way it put you on edge to see what was to come.

My favorite part of The Unadoptables was when [REDACTED]
[REDACTED]

My favourite character was Milou because she was brave and fun, it was easy to relate to the characters.

I think the best part is the end because it leaves you satisfied but you are intrigued to see if Milou [REDACTED] and what happens [REDACTED]
[REDACTED].

This book was perfect for my age, it extended me and encouraged me to learn some new words. I found the story believable and I would definitely recommend this story to my friends.
