

This book is a very quick reading book with a lot of detail to every part.

I liked this book because once you start reading it, you can't stop and you feel like you are in the story.

I would recommend this book to people from 10-15 years old, you need to pay close attention to every part or you get lost within the storyline, I had to re-read some parts because I wasn't paying full attention.

I liked this book because of the Morse code, when they would make a pattern with a gun and I loved how you could go to the back of the book to figure it out instead of the book just telling you.

The glossary was helpful as well with words I didn't know the meaning of.

I also liked some of the accents that were added in like Noo Zealand, kangy-roo or Kee Wee.
