

Decodable Books

Fiction & non-fiction sets for beginner and older readers

Truly decodable books for every reader

Phonic Books was created by three reading specialists as a result of their years of experience and the need they saw for decodable books in the classroom to build reading confidence and fluency.

Decodable fiction and non-fiction series available

What is decoding?

Decoding is the process of reading a word by sounding out the letter sounds and blending them together.

/m/ /a/ /p/ → "map"

What are decodable books?

Designed for children who are learning to read, decodable books are carefully written stories and texts that use only the letter sounds pupils have been taught. They offer pupils the opportunity to practise decoding words, which in turn helps to develop their reading fluency by having them sound out the letters on the page and blend them into words. With repeated practice, children can read words quickly and fluently, gradually recognising them by sight. They also have an opportunity to develop word recognition for high-frequency words that will help them to read fluently.

Decodable books should:

- Contain words using the letter sounds the pupil has learnt
- Provide essential practice of phonics skills
- Encourage children to sound out and decode each word
- Feature fewer than 20% high-frequency words

Why use Phonic Books decodable books?

Created by reading specialists, Phonic Books has a history of delighting and engaging children who are learning to read.

- The books complement any systematic phonics programme and are easy to use in the classroom.
- They offer incremental and cumulative progression through the series.
- There are multiple sets which cover the same phonics progression to ensure that pupils who need extra practice have a new story to engage and motivate them.
- Each series has an accompanying, reproducible workbook that includes teaching and practice activities to support the learner and build their reading confidence.

Books for beginner readers

A chart on the back of every book makes it easy to see the phonics skills covered in the series and to know which book to move onto next.

non-fiction structured for beginner readers
used with any phonics programme.

These decodable books were developed by reading and dyslexia specialists, and offer children engaging information and texts right from the beginning of learning to read.

Cream-coloured background to reduce visual stress

The phonics focus is clearly shown on the front of each book.

There is an accompanying activity book for each series with activities on reading, writing and spelling.

Where is my sock? I suspect the sock bandit. This kitten will collect socks.

6

What is this new kitten project? Will he go fishing? We cannot have a fish bandit!

Example instructional sequence using Dandelion Launchers and activity books

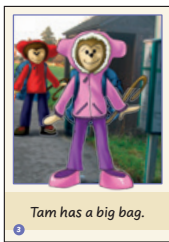

1 Explicit teaching of new letters and sounds

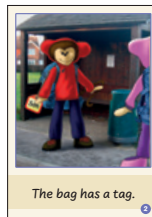

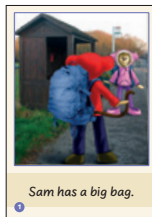

2 Word building

5 Apply new and prior learning to a decodable text

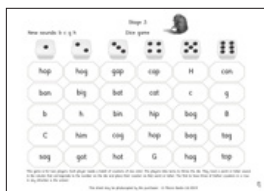

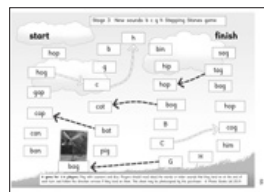

4 Sound hunting: finding the target words in the text

3 Word reading

6 Games and activities to develop fluency

7 Word or sentence dictation to assess learning

Phonic Books also has decodable books for older readers.

These engaging fantasy and adventure stories with graphic novel-style illustrations are perfect for interventions in Year 3 and above. See page 18.

Dandelion Launchers is a fully decodable phonics series for beginner readers. The series is organised into 20 progressive stages to build a gradual understanding of phonics. Each stage introduces new letters/sounds while supporting previously taught phonics and high-frequency words. It begins with sounds of the alphabet in Units 1–7, progressing to adjacent consonants and consonant digraphs in Units 8–15, then on to two-syllable words and more complex spelling patterns: tch, ve, le and the suffixes -ed and -ing, in Units 16–20. A game is included at the back of each book, offering a fun way to practise the new phonics and knowledge introduced at each stage.

Dandelion World is the parallel series to Dandelion Launchers, and covers a range of engaging non-fiction topics. Each book includes a non-fiction knowledge builder feature for children and adults

to read together. This is a fun way to enhance vocabulary and deepen comprehension of the book's content.

Dandelion Readers is a series of books for beginner readers. The Readers Sets cover the initial phonics code, while the Readers Vowel Spellings introduce different spellings for vowel sounds. Dandelion Readers Split Vowel Spellings covers split vowel or silent 'e' spellings. More text than in previous series is included on each page to build reading stamina. A helpful "Reading Practice" section at the back of each book allows further practice of each new spelling taught.

Catch-up readers

Decodable books with fantasy and adventure stories for Year 3 and above, perfect for intervention programmes

1

When a pupil begins a reading intervention program, it is important to assess what knowledge and skills the pupil has and what they have to learn. Use the diagnostic assessment in the Phonic Books Teacher Guide for guidance.

2

Select a set of Phonic Books based on the recommendation.

3

Work through the books and the corresponding activities in the activity book.

The activity books:

- Offer comprehension, blending, writing and spelling activities based on the stories in the reader sets.
- Help pupils to develop the skills necessary to become proficient readers including blending, segmenting and phoneme manipulation.
- Provide a simple and effective way for pupils to develop their reading and spelling.
- Include some activities that precede reading the books.
